Fjordland Cancels Non-Brokered Private Placement

Vancouver, BC, October 5, 2015 – **Fjordland Exploration Inc.** (TSX-V: [FEX](#)) announces it will not be proceeding with the financing announced on June 19, 2015. Proceeds of this financing were intended to fund the initial drill testing of several highly encouraging UTEM anomalies recently identified on the South Voiseyø Bay Copper-Nickel-Cobalt Project. Due to climate, the drilling season in Labrador for this time of year is drawing to a close and the Company would not be able to complete the planned drill program without incurring additional costs related to weather. The Company has earned 15% interest in the project and intends to participate in future exploration programs proposed by the operator, Commander Resources Ltd.

About Fjordland Exploration Inc.

Fjordland Exploration Inc. is a mineral exploration company historically focused on the discovery of copper and gold deposits in British Columbia. Fjordland's principal exploration focus is currently nickel-cobalt deposits in Labrador. Fjordland's shares trade on the TSX Venture Exchange under the symbol "FEX".
